SKIP THE STOP

A Landscaper's Dream...

In the early morn, as lawn crews start their day,
Gotta get fuel, time ticks away.
In a cramped parking lot, where space is thin,
Crews inside for snacks, a daily sin.
Customers are waiting and needing a mow,
But your crew leader has to go.
Toilets, gas, coffee or Red Bull they must get,
Now waiting for Jose who's taking a shit.

Yet imagine a scene where this delay is gone,
With a Super Lawn Truck, work starts at dawn.
Onboard fuel stations are ready, no need to stop.
Refuel once a week, profits will pop!

No more lugging cans, or fuel spills on green,
With easy-use pumps, the best ever seen.
An extra month's income now within reach,
With this gas station on wheels, a lesson to teach.

Boost your crew's billing by mowing more grass,
With profits soaring, you're enjoying more cash!
Efficiency's the key, productivity's peak,
More mowing, less pausing, every hour, every week.

Adopt this new ally, let it streamline your day,
Transform how you work, innovate the Super Lawn way.
For a lawn business owner, with clients to serve,
Get your crew on site early and collect the profits you deserve.

- Fill Up Your Equipment In Less Than 60 Seconds
- 5 Gallons Per minute Pumps For Fast, Onite Fill Ups For Regular Gas
- Prevents Spills on Turf When Filling Equipment
- .75 Gallons Per Minute For Fast Onsite Fill Ups For Premix Gas

WHAT IS THE FUEL STOP REALLY COSTING YOU?

IT'S MORE THAN JUST THE FUEL

Fuel stops are an expensive part of providing lawn and landscape services. Yes, we know the fuel costs a lot. But never forget about the labor costs to fuel equipment and gas cans. Your cost is much more than you think. The lost opportunity to have crews working on a job site and creating revenue is staggering. Here's the math to carefully consider.

Crew Size & Fuel Stops (10 minute stops)	Time Lost Per Week	Hours Lost Per Season (40 weeks)	Revenue Lost (at $70 per man hour)
Three Person Crew **Daily Stops** (5x per week)	2.5 hours	100 hours	**$7,000**
Three Person Crew **3x per week stops**	1.5 hours	60 hours	**$4,200**
Two Person Crew **Daily Stops** (5x per week)	1.7 hours	68 hours	**$4,760**
Two Person Crew **3x per week stops**	1 hour	40 hours	**$2,800**

KEEP YOUR CREW ON THE JOB SITE!

An onboard fuel station from Super Lawn Trucks can reduce fuel stops to just once per week. You will have the ability to carry enough fuel to keep your crew on the job site more and at the fuel station less. This innovative tool saves time and it will last as long or longer than the truck you buy. It pays for itself in a year or less.
